PART IV A

Bills introduced in the Bengal Legislative Assembly; Reports of Select Committees presented or to be presented to that Assembly; and Bills published before introduction in that Assembly.

BENGAL LEGISLATIVE ASSEMBLY DEPARTMENT.

NOTIFICATION.

No. 5515L.A. — 13th December, 1937. — In pursuance of the provisions of rule 21 of the Bengal Legislative Assembly Rules, the following Bill which was introduced in the Bengal Legislative Assembly on the 16th September, 1937, is hereby published for general information together with the Statement of Objects and Reasons annexed thereto.

THE STATE PROVISION BILL FOR VETERINARY HOSPITALS AND STUD BULLS, 1937.

A

BILL

to provide for the establishment and maintenance of Veterinary Hospitals and stud bulls in all District Headquarters for the treatment of cattle and for improving the breed of livestock in Bengal under the control and supervision of the Veterinary Department.

WHEREAS it is expedient to make provision for establishing Veterinary Hospitals and maintaining stud bulls in all the District Headquarters of the Province,

It is hereby enacted as follows:

1. (*a*) This Act may be called the State Provision Act for Veterinary Hospitals and Stud Bulls, 1937.

(*b*) It shall come into force on such date as the Governor may, by notification in the *Calcutta Gazette*, appoint.

2. In this Act, unless there is anything repugnant in the subject or context.

" District Headquarters " means headquarters of each district in the Province of Bengal.

" Livestock " means all kinds of cattle (*e.g.*, cow, bull, buffalo) horse, dog and other domestic animals including poultry.

" Livestock Expert " means a veterinary doctor with special knowledge in breeding of cattle and poultry.

3. A Veterinary Hospital equipped with all modern appliances and medicines and fittings is to be established as an adjunct to the Veterinary Dispensary already existing in each District Headquarters for accommodating and treating cattle and livestock at such nominal fees as will be accessible to the poor and placed under the Veterinary Department in the Province of Bengal.

4. Attached to the hospital there shall be an annexe where there shall be at least two pedigreed stud bulls for servicing cattle at nominal fees.

5. The officer in charge of the hospital shall be a fully qualified Veterinary Surgeon.

6. The officer in charge of the annexe shall be a qualified livestock expert who will be subordinate to the officer in charge of the hospital.

STATEMENT OF OBJECTS AND REASONS.

For want of Veterinary Hospitals in many districts poor agriculturists find it difficult to properly treat their cattle. Villagers residing far off from the District Headquarters cannot bring their ailing or diseased cattle to the dispensary regularly for treatment with the result that treatment is neglected and often not undertaken and consequently cattle mortality is on the increase. The provision for maintaining stud bulls as an adjunct to the hospital will remove the long-felt necessity for improving the breed of cattle in the Province. This will also combat the deterioration and degeneration of the breed that is taking place due to mating of imperfect and unhealthy cattle. The services of a livestock expert may also be utilised for touring the mufassal and advise the villagers generally with regard to the improvement of the breed of cattle.

48. Forms and rules before they are embodied in this Act, must be placed in both the houses of legislature. And any amendment or addition suggested by any of the houses shall be incorporated therein.

STATEMENT OF OBJECTS AND REASONS.

Bengal is an agricultural country. Her staple crop is jute. The importance of this fibre in the commercial market of the world is great. It has as yet no successful imitation or substitute. Jute is not grown in any other part of the globe, while the production of the two sister provinces of Assam and Bihar is negligible. So jute can safely be called the monopoly crop of Bengal. It is, therefore, meet that the jute-growers should get fair price to have sufficient margin over cost of production. But unfortunately due to financial distress and some other economic factors the price of jute sometimes falls below the cost of production, nowadays. Besides the fluctuation of market has become so very disturbing element in the life of the Bengal agriculturist that he can very seldom balance his family budget. To ensure him of some financial stability, a legislation like the present one has become a crying necessity and need.

STATEMENT OF OBJECTS AND REASONS.

It is a fact that the Permanent Settlement was granted to the landlords (zamindars) not merely for their own benefit but also for the benefit of *raiyats* of all grades. But the *raiyats* of Bengal have been still suffering in ways more than one. The Bengal Tenancy Act was passed in 1885 with the intention of protecting the *raiyats* from all unjust claims or exactions, but it is an irony of fate that many of the provisions of this very Act with all its past amendments militate against the principles and the intentions of the Permanent Settlement. Among the many grievances the rates of rents strike the most. The rents payable by the *raiyats* to-day are much beyond their economic capacity. Rents have increased to such exorbitant extent that the lands of the cultivators are rapidly passing away from their hands. As an instance, the revenue or *sadar-jama* of Aila Tearkhali and Fuljhuri estate in the district of Bakarganj is Rs. 372-3-8 while the total demands of rents from *raiyats* of this estate amount to Rs. 92,987-7-5. From such an instance one can very well realise the extent of demands on the *raiyats* in this province. This Bill has been drafted to mitigate many of the standing evils. The Bill provides that in the vast permanently-settled areas a landlord's claim of rent upon his tenant should not exceed, by more than 50 per cent. the revenue or rent which he himself pays to Government or his superior landlord and that the rates of rents in lands not subject to the Permanent Settlement should also be readjusted and reduced wherever required, according to the rates of rents payable for similar lands in the vicinity in permanently-settled area; and that rates of rents payable by all grades of tenants should be made permanent. Another feature of this Bill is that if the rates of rent are reduced on this basis the landlords should be exempted from paying any cesses whatsoever and the cultivating *raiyats* should pay such cesses in future on acreage basis instead of rupee basis. The Bill, among others, deals with the following salient points :—

Section 1 to be amended to extend the operation of this Act to all municipal and *chandina* lands in mufassal areas.

Sections 6-9 to be repealed to stop enhancement of rents of tenures.

Section 18 to be repealed as redundant.

Section 19 to be amended to make provision that every *raiyat* and under-*raiyat* should have occupancy right.

Sections 20-21 to be repealed as redundant.

Section 23A to be amended to extend the rights of *raiyats* and under-*raiyats* and to enable them to make all sorts of improvements on their lands including the erection of masonry houses and buildings for religious, educational and charitable purposes.

Repeal of chapter XIIIA.

10. The entire chapter XIIIA of the said Act regarding summary procedure for the recovery of rents under the Bengal Public Demands Recovery Act, 1913, shall be repealed. Ben. Act III of 1913.

STATEMENT OF OBJECTS AND REASONS.

The system of landlord's transfer fee has made the transfer of *raiyati* lands rather rare. To facilitate easy transfer it should be altogether abolished. As regards enhancement of rent it can be said that at the present time the tenants are unable to bear the heavy burden of rent. If the provisions of the Bengal Tenancy Act are not extended to all the lands of the muffasal municipal areas also the growth of the muffasal towns will be much hampered. At the present time muffasal towns people are not getting the same privileges which other people are enjoying under the Bengal Tenancy Act. When there are sufficient provisions for the realisation of rent in the Act itself there is no need of taking the help of the summary procedure of the Bengal Public Demands Recovery Act, 1913. An attempt has been made in the Bill to remedy all these defects as far as practicable.

STATEMENT OF OBJECTS AND REASONS.

Whereas it has become urgently necessary to remedy the evil effects of some of the provisions introduced in the Bengal Tenancy (Amendment) Act, 1928, and whereas it has become further necessary to give a healthy tone and economic rejuvenation to the actual tiller of the soil who has been hard hit by the abnormal fall in the price of the staple food crops, jute and other crops and whereas the purchasing capacity of the *raiyats* having greatly diminished, it is essential that some of the sections of the present Bengal Tenancy Act should be so amended that it can relieve the *raiyat* to a very great extent from his present economic thraldom. Though the Bill that is being introduced cannot effectively deal with all the ills that he is suffering from, yet the provisions would be something with which he can quench his thirst. With this hope the present Bengal Tenancy (Amendment) Bill is being introduced in the Bengal Legislative Assembly at its present session.

(*3*) Nothing herein contained shall be deemed to authorise the court to make an order for the distribution of rent,

(*i*) if the distribution of rent results in bringing the rent for any portion of the tenancy below Rs. 2 both in the cases of the tenure and holdings;

(*ii*) no court shall make any such order without notice of the application being served on the landlord or landlords concerned."

STATEMENT OF OBJECTS AND REASONS.

1. There have been several Amending Acts since the Bengal Tenancy Act was passed in 1885. Important changes were made from time to time in the meantime. The present agrarian condition of the *raiyats* and the general economic crisis of the day have brought to light several defects in the Act which demand an early and substantial further modification in the said law.

2. The difficulties in the existing law regarding the transfer of the occupancy-*raiyati* holdings are to be brought to the notice of the Government for proper legislation so that the free transfer of those properties may not be fettered in any way. As the payment of landlord's transfer-fee as provided in section 26D creates very much hardship on the tenants, specially in the light of the present economic crisis of the day, in transferring their *raiyati* holdings, the repeal of all the sections connected with it are essentially necessary.

3. As the right of pre-emption to be exercised by the landlord on receipt of the notice of transfer as provided by section 26F throws obstacle in the free devolution of the *raiyati* holdings, the very enactment of the said section is to be repealed for the amelioration of the conditions of the *raiyats* as most of them are poor peasants.

4. The provisions, for enhancement of rent of the *raiyats* for various reasons as provided by sections 29 to 37 of the said Act, are to be repealed as a whole for improving the conditions of the poor *raiyats*, specially in these days of economic distress.

5. No longer there should be any distinction whatsoever, with respect to the incidents of the occupancy and non-occupancy-*raiyats* as that only curtails some of the legitimate and precious rights of the latter class of tenants. If these unjustifiable and unreasonable provisions, as it stands in the present Act, be allowed to continue, tenants of that class will get the least encouragement for the real improvements of the land. As they are in the real touch with the soil no improvement of the same is possible unless they get the same permanent right as it is with the occupancy-*raiyats* under the present Act.

6. In the face of the present exorbitant rate or amount of rent paid by the tenants to their immediate landlords no further provisions, for paying additional rent as provided by clause (*a*) to sub-section (*1*), sub-section (*3*) and sub-section (*5*) of section 52, are to be allowed to continue any more. So to allow due and sufficient reliefs to the already overburdened tenants the repeal of the above provisions for additional rent is quite indispensable for the present.

7. For the convenient payment of the respective share of the rent by the tenants and for the removal of the acute difficulties which they are to meet in the face of the present provisions of the section 88 of the said Act, the proper amendment of it is necessary for the above reasons. The apparent principle of the section is a noble one, no doubt, but the various hedged round conditions attached to it cripples the same. So the said section should be amended in the manner suggested in the Bill.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 10th December 1937.

Final Forecast of the Bhadoi Crops of Bengal, 1937-38.

(*Note*—On an average of the five years ending 1935-36, the area under autumn rice in Bengal has represented some 7·9 per cent. of the total area under rice in British India.)

Character of the season.—As reported in the preliminary forecast preparatory tillage was carried under favourable condition; but the dry months of March and April delayed sowings and insufficient rainfall in June and July affected the highland crops. Since then the conditions became favourable for growth and development of the crops. Some damage to *bhadoi* paddy was, however, caused by *pamari* insects in Bakarganj and by excessive rainfall and floods in Chittagong and by cyclone in Noakhali. The season, on the whole, was fairly satisfactory.

Acreage.—The total acreage sown with the different *bhadoi* crops this year is reported to be 6,616,500 acres as against 6,494,100 acres last year. Of this, the area under autumn rice is estimated at 5,864,500 acres as against 5,756,600 acres last year.

Outturn.—According to District Officers' estimates, the outturn of the different *bhadoi* crops for the Presidency works out at 83 per cent. of the normal this year as against 82 per cent. last year. The autumn rice is estimated to yield an outturn of 82 per cent. of the normal for the province this year as against 81 per cent. last year.

On the basis of a normal yield of 11 1/9th maunds of clean rice per acre, the gross outturn of *bhadoi* paddy (autumn rice) for the province is estimated at 1,962,800 tons this year as against 1,903,200 tons (revised) last year.

Director of Agriculture, Bengal.

Bakarganj.	*Bhadoi* paddy (autumn rice).	310,000	345,000	360,000	110	83	July. Normal.	The increase in area is due to propaganda and for meeting the cultivators' own demand for food before harvesting of next *aman* crop. Pamari insect pests also did heavy damage to the crop, especially in the south where the area under *aus* this year was more. Hence the outturn fell below the normal.

3. If any measure which the Health Officer has, by a notice issued under regulation 20, required to be carried out, be not carried out to his satisfaction within the time stated in the notices the Health Officer shall be entitled to carry out the measure.

(*2*) The municipality may recover all expenses incurred by the Health Officer in carrying out the measure under regulation 3 from the person or persons to whom the notice was originally issued.

5. The municipality shall pay adequate compensation to any person who has sustained substantial loss or damage by reason of anything done under these regulations:

Agreement.

MEMORANDUM OF AGREEMENT made this 19th day of December one thousand nine hundred and thirty-seven BETWEEN SIR NILRATAN SIRCAR, Kt., of No. 7, Short Street, in the town of Calcutta, DR. WHEREAS for the purpose of the construction of extensions of the Jadabpur Tuberculosis Hospital for the treatment of the sick and convalescent (which is under the management and control of the above Society) including quarters for the Nurses and Staff and provision of grounds for the recreation and graduated exercise of the patients, the Society has applied to the Government of Bengal for the acquisition under the provisions of the Land Acquisition Act, 1894, of the piece or parcel of land containing 1·92 acre or thereabout situate in the village of Jadabpur, thana Tollygunge, in the district of 24-Parganas, and more particularly described in the Schedule hereto annexed and delineated in the plan* hereunto annexed.

AND WHEREAS the Government of Bengal, being satisfied by an enquiry held under section 40 of the said Act that the proposed acquisition is needed for the aforesaid purpose and that the said work is likely to prove useful to the public, has consented to acquire on behalf of the SOCIETY the pieces or parcels of land hereinbefore described AND WHEREAS the said Government of Bengal has required the SOCIETY under provisions of section 41 of the abovementioned Act to enter into the Agreement with the Governor hereinafter contained.

NOW THIS INDENTURE WITNESSETH that it is hereby agreed and declared as follows:—

1. On demand the SOCIETY shall and will pay to the said Government of Bengal all and every compensation in respect of the said land tendered, paid or awarded or to be tendered, paid or awarded by the Collector under the Land Acquisition Act, 1894, or by the Court to which a reference under Part III of the said Act may be made, or by the Court or Courts to which an appeal from the award of the said Court may be preferred and all costs, charges and expenses of the proceedings in the aforesaid Courts, or otherwise incidental to the proposed acquisition or payable in respect thereof under the provisions of the said Act.

2. On demand made by the said Collector the obligations of the SOCIETY under the last preceding clause not being thereby limited, the SOCIETY shall and will deposit with the said Collector such sum or sums of money as in his discretion the said Collector may in anticipation estimate to be necessary for the purposes mentioned in the last preceding clause.

3. On payment by the SOCIETY of all demands under the foregoing first clause, or in the discretion of the said Government of Bengal (on deposit by the SOCIETY of all estimated amounts as provided in the second clause), but not before possession shall have been taken under the provisions of the abovementioned Act, the Governor shall make over possession of the said land to the SOCIETY and shall execute and do all such acts and deeds as may be necessary and proper for effectually vesting the same in the SOCIETY.

*Not printed but may be inspected in the office of the Collector of 24-Parganas.

4. The said land shall be held by the SOCIETY for the purposes of such extension and works as are hereinbefore mentioned and without the sanction in writing of the said Government of Bengal first had and obtained for no other purpose whatsoever.

5. The said extension shall be completed (and fully equipped in all respects ready for use) within two years from the date on which possession of the said land shall have been given to the SOCIETY.

6. Should the said extension not be completed (and fully equipped in all respects ready for use) within the period stated in the last preceding clause or within such further period as in its discretion may be prescribed or allowed by the said Government of Bengal or should the said land at any time thereafter cease for a period of twelve consecutive months, to be held and used or cease to be required for the purpose or purposes provided for in the foregoing fourth clause then and in any such case the said Government may summarily re-enter upon and take possession of the said land together with all buildings thereon, whether such buildings were erected before or after transfer of the land to the Society, and thereupon the interest of the SOCIETY in the said land and buildings shall absolutely cease and determine.

7. On taking such possession the said Government may sell or otherwise deal with the said land and buildings as it may think proper.

(*i*) Should the said Government sell the land with the buildings the said Government after deducting the expenses incurred in connection with the said taking of possession and with such sale shall pay the proceeds to the SOCIETY.

(*ii*) Should the said Government decide not to sell the land and buildings, the said Government shall retain the said land and buildings thereon in which case the Governor shall repay to the SOCIETY the market value as on the day of re-entry of all the buildings erected by the SOCIETY and all sums received from the SOCIETY in respect of all and every compensation as provided in the foregoing first clause (less the statutory allowance of 15 per cent. and less any amount received on account of the trees and buildings which are not in existence at the time of resumption), but will not repay any sums paid and received on account of costs, charges and expenses.

(*iii*) Should the said Government decide to sell the buildings only, upon such sale, the Governor after deducting the expenses of taking possession and selling, pay the balance of the proceeds of sale to the SOCIETY, together with the sum received from the SOCIETY in respect of the compensation of the land (less the statutory allowance of 15 per cent. and less any amount received from the SOCIETY on account of trees and buildings which are not in existence at the time of resumption), but will not repay any sum paid and received on account of costs, charges and expenses.

8. The public shall be entitled to use the hospital and its extensions as above on the following terms and conditions, viz., according to the rules and regulations of the hospital.

9. The SOCIETY also agree to provide the segregation of advanced cases in a manner to be approved from time to time by the Medical Department of the said Government and in particular not to locate wards for such cases by the side of the public road.

10. THE SOCIETY also agree that no building shall be constructed on the land to be acquired before the plan of such building has been approved by the Surgeon-General with the Government of Bengal.

11. Should any dispute or difference arise touching or concerning the subject matter of this Agreement or any covenant, clause or thing herein contained the same shall be referred to the said Government of Bengal and the opinion and decision of the said Government upon such dispute or difference shall be final and conclusive and binding on the parties hereto.

Calcutta, the 15th December 1937.

Babu Brajamohan Dutt's Prize for Indian Ladies for the year 1936-37.

The following subject has been selected for "Babu Brajamohan Dutt's Prize" of Rs. 45 for the year 1936-37:—

Female characters as depicted by Poet Nabin Chandra.

The conditions for the award of the prize are—

(1) That the competition be open to all educated women, being natives of Bengal, without regard to age.

(2) That the prize of Rs. 45 be given for an essay to be written either in Bengali or Sanskrit.

(3) That the essays be sent to the Provincial Text-book Committee for adjudication within six months of the date of advertisement.

(4) That each essay be accompanied by a written declaration from the husband, parent or guardian of the competitor that, to the best of his belief, she has received no assistance of any kind, direct or indirect, in writing the essay.

Candidates are requested to send their essays to the Secretary to the Provincial Text-book Committee, Writers' Buildings, Block No. 5, Room No. 1, Calcutta. The envelope containing the essay should be superscribed "Brajamohan Dutt's Prize Essay." The name of the successful competitor will be published in the *Calcutta Gazette.*

A lady who wins the prize in any year is not debarred from subsequent competition, and if the essay submitted by a competitor who has been previously successful is adjudged to be the best, the name of such a competitor will be published in the Gazette as the winner of the competition. The actual prize will, however, in these circumstances, be awarded to the competitor whose essay is adjudged to stand next in order of merit, provided that her essay comes up to the standard required by the next clause.

If none of the essays comes up to a standard which is, in the opinion of the Examiners, adequate, no prize will be awarded.

STATEMENT OF OBJECTS AND REASONS.

The object of the Bill is to remedy the evil effects of some of the provisions introduced in the Bengal Tenancy (Amendment) Act, 1928, and do away with some of the iniquitous differences amongst different kinds of tenants at present in existence under the Bengal Tenancy Act and thereby rehabilitate the economic life of the actual tiller of the soil. The abnormal fall in the price of the staple food crops, jute and other crops has hit the *raiyat* hard and the purchasing capacity of the *raiyat* has been so reduced that it is essential that some of the sections of the present Bengal Tenancy Act should be amended to relieve the *raiyat* to some extent from his present economic thraldom.

The Bill that is being introduced cannot effectively deal with all the ills from which the *raiyat* is suffering, but the provisions would to some extent relieve him from his present distress. It is superfluous to advance reasons for desiring to improve the condition of the agriculturist for it is agreed on all hands that the economic life of the nation depends upon the economic prosperity of the *raiyat*. It is he who maintains the entire superstructure of our civilisation and culture and hence on grounds of equity and political justice as well as of the economic self-interest of the community as a whole, it is essential that the condition and status of the *raiyat* must be improved.

STATEMENT OF OBJECTS AND REASONS.

It is a well-known fact that the condition of the Bengal peasantry is not only deplorable but is going from bad to worse. The amendment of the Bengal Tenancy legislation in 1928 instead of improving their lot has worsened their condition in many respects. Due to the abnormal fall in the prices of staple food crops and the main money crop without any hope of recovery in the near future resulting in untold miseries and hardships to the real producers of wealth, it is absolutely necessary that something tangible must be done to ameliorate the condition of the different classes of tenants.

With that view, the amendments proposed will but touch the fringe of the great tenancy problem in Bengal for which the public and the press are for a considerable length of time showing their eagerness to tackle the situation as early as possible.

To remove the anomaly the maximum rent payable by the tenant has been fixed, rights of *raiyats* in the use of their lands have been extended. Provision has also been made for the remission of rent in urgent cases, reduction of interest for default, subdivision of tenancy, protecting tenants from unnecessary harassment, for abolition of transfer-fee and pre-emption rights of the landlords and for special protection of the co-tenants who pay the rent regularly in suits for arrears of rent as well as in the case of the sale of the tenancy for the arrears of the co-tenants.

It is therefore time for every right thinking man who has the interests of peasants at heart to step in and protect dying men from misery and starvation and thus help in building up the Bengali race.

STATEMENT OF OBJECTS AND REASONS.

Since the last general amendment of the Bengal Tenancy Act of 1885 made in 1928 there has been a persistent demand for further amendment of the Act to the greater benefits of the tenants both from the general public and the tenants. In our opinion the present economic depression in the country is more responsible for such demand than the ordinary conditions under which tenancies are held. To illustrate the above it may be said—

(*i*) that unless the crushing indebtedness of the *raiyats* caused by continued fall in the prices of agricultural commodities would not force the *raiyats* to sell their holdings or portions thereof, the *raiyats* would not demand unfettered right to transfer the same, because they know in the heart of their hearts that unfettered transferability of their holdings is very likely to turn them as landless labour at the instance of the money-lenders; but now that they are forced to sell their holdings they must naturally get the maximum of the present abnoramally low price of their lands, to which landlord's fee is certainly a bar, and that is why they demand the withdrawal of the fetter of landlord's transfer fee:

(*ii*) that the prevailing rate of rent which they had till recently been paying without grudge has become excessive and disproportionate to the value of their land-products owing to the heavy fall in their prices, and that is why they demand that the present rate of rent must be reduced: and

(*iii*) that no co-sharer tenant, however small his holding may be, himself being poverty-stricken can bear the additional burden of paying the rent due by his comparatively more distressed co-sharers to save the holding from sale for arrears of rent due to all the co-sharer tenants, and that is why they demand free and unrestricted sub-division of their holdings.

Besides the above, in these days of progressive democracy, all schools of political thought consider it high time to recognise absolute right of the tillers of the soil to the land, which they till with the sweat of their brow to produce food for the human race as well as other articles for increasing the nation's wealth. In order to keep with the time and also to meet the aforesaid and other reasonable demands of the tenants I have thought it expedient to further amend the tenancy Act of our province. I am conscious of the fact that within the four corners of the Act, which is based on the principle of transference of the right to land firstly from the State to the proprietors and then from the proprietors to the tenants, much cannot be done to relieve the present distress of the tenants in general. I have, however, considered it expedient to loosen every hard knot as much as may be permissible under the present constitutional structure of the Act to give all possible relief to the producers of our food from land and water.

Proceeding on that principle I have proposed to amend the Act as follows:—

(1) I have thought it advisable to reduce the landlord's transfer fee payable by *raiyats* to a fixed nominal sum payable to the landlord for the required change of his books, and, consistently with it, modification of the landlord's fee payable by tenure-holders also has been thought expedient. I have, therefore, proposed the amendment of the sections of the Act relating to the payment of landlord's fee and landlord's transfer fee by reducing both kinds of fee to the fixed sum of two rupees.

(2) The prevailing rate of rent has appeared to me to be an undue pressure, and I have thought it reasonable to reduce the rate by at least the amount by which it has been enhanced on the ground of the rise in the price of staple food crops in the course of the last 30 years. And as regards the cases where the tenants hold their tenancies under rack-rents, I have amended section 112 of the Act, so that upon the application of one hundred tenants of a locality where such rack-rent prevails, the Government shall require a Revenue Officer to settle fair and equitable rent payable by the tenants of the locality. But at the same time I have had regard to the probability of the present system of private landlordism being abolished in near future and of the rents payable by the *raiyats* becoming the main land-revenue of this province, to be utilised for the benefit of the *raiyats* themselves, and accordingly I have thought it wise to provide for the enhancement of the rent up to the limit of one-fifth of the net value of the produce of the land. I have, however, thought it right to deny the landlord, whether a private person or the Government, to get any unearned increment of rent. I have therefore considered it fit to define a fair and equitable rate of rent payable by a *raiyat* by wiping out the general increment of rent made within the last 30 years and to provide for earned increment only of rent as well as for reduction of rent on similarly fair grounds, and have also considered it right to make consistently fair provision for the reduction and increment of the rent payable by the tenure-holders. I have accordingly proposed suitable amendments of the sections of the Act relating to the rent payable by the *raiyats* and tenure-holders and to the enhancement and reduction thereof.

(3) I have also for the aforesaid reasons provided for free and unrestricted sub-division of the holdings and tenures.

(4) I have seriously considered the legal status of the *bona fide* fishermen, who produce no less an important item of food than rice for the people of this province and, in the absence of any special legislation as to their rights and privileges, who are now absolutely at the mercy of their lessors, and who as producers of an important item of food can reasonably claim protection under the law of the land. I have accordingly proposed for them a recognised right almost like that of a *raiyat*, and have inserted a few provisions as to their status and rights into the Bill.

(5) While proposing to confer additional rights and privileges to the *raiyats* I have not forgotten the cases of the tenure-holders who do not hold permanent right to the land. While giving the *raiyats* and under-*raiyats* the right of transferability and heritability I consider it logical and fair to give the same right to the non-permanent tenure-holders also. I have, therefore, proposed amendments to that effect.

(6) The transference of the occupancy-holding having been made as much free as that of the *raiyati* holding at fixed rent or rate of rent, and other rights and privileges of those two kinds of *raiyats* being the same I have considered it unnecessary to retain a separate class of *raiyats* under the denomination of "*raiyat* at fixed rate or rate of rent." I have therefore proposed for its omission from the Act.

(7) I have considered the insecurity of the tenancies of the non-occupancy-*raiyats* and under-*raiyats* also with all fairness due to them, and have proposed to remove the clauses by which they are ejectable on the ground of non-payment of rent.

(8) I have moreover made provision for the under-*raiyats* acquiring the right of occupancy by occupation for continued twelve years.

(9) I have also adopted measures to prevent the growth of a new kind of bourgeois in the name of *raiyats* by making provisions under which a *raiyat* who shall possess more than 50 standard bighas of land or who shall convert himself into a rent-receiver in respect of the major portion of his holding or who shall settle lands with an under-*raiyat* to erect a dwelling house thereon, shall cease to be a *raiyat* and shall become a tenure-holder and the tenants under him shall become *raiyats*. The principle underlying these provisions is to give the greatest benefit to the actual tillers of the soil.

(10) The rent-paying capacity of the tenants in general having considerably diminished, I consider it a great hardship to impose interest on the arrears of rent at the rate of 12½ per cent. per annum and have therefore proposed to reduce it by half; for the same reason I have proposed to reduce the rate of compensation on arrears of rent by half.

(11) It being a general complaint that in spite of the realisation of any excess over the actual rent and cess being made illegal by the present Act, such illegal excesses, *e.g.*, *abwabs*, *taharis*, etc., are still being realised by some landlords and their agents. Although there is a provision in the Act affording the tenant the right to sue the landlord and his agent for compensation for exaction of the aforesaid excesses, such right is not exercised for fear of costly litigation in civil courts. The tenants have consequently remained as much victims to the greedy landlords and their agents as before. I have, therefore, proposed criminal action against the exacting landlord or his agent, as the case may be, by inserting a new clause to that effect.

(12) Non-granting of receipts of rent to the poor tenants by many landlords and their agents is still continuing as before. This is causing duplicate payments resulting in great loss to the poverty-stricken tenants. In spite of the provision for those tenants to get compensation for such action from the landlord and his agent, the tenants owing to their poverty cannot take costly legal steps for that purpose. I have therefore proposed criminal action in such cases also by inserting new clauses to that effect.

(13) Though generally the landlords do not sue their tenants for arrears of rent at the end of every instalment of three months, yet there are many instances where the landlord in order to feed his grudge against his tenant for private reasons sues the tenant for arrears of rent in quick succession with the object of oppressing him to the point of evacuation from the land. In order to protect the tenant against such cases of oppression I have proposed for enlarging the interval of two successive suits for rent from three to twelve months.

(14) I have observed that where a tenant holding land under a registered lease pays rent in kind he is put to great hardship when his rent falls in arrears and his landlord sues him for that. What happens is that even when the rent payable by a *burga raiyat* in a particular year is, say, 5 *cottahs* of paddy, the court decrees the sum of, say, Rs. 20, the amount mentioned in the lease for the purpose of registration, as the value of that year's rent, on the ground that evidence to prove that the said recital in the lease was not intended by the parties to be interpreted as the actual value of the rent is barred by section 92 of the Evidence Act. Similar hardship happens in the case of tenants paying a fixed quantity of crop as rent. In order to remove this inequity and hardship on the *raiyat* I have proposed amendment to that effect.

(15) I have also observed that where a co-sharer landlord sues his tenant for arrears of rent and makes his co-sharers, who may be large in number, defendants in the suit, the costs of making them defendants in many cases exceed the plaintiff's claim by a good many times, and the unfortunate tenant who was not responsible for such course of action on the part of his landlord is forced by a legal decree to bear the unbearable burden of the costs of the suit. I have proposed measures to render such costs non-payable by the tenant.

(16) I shall now refer to the following two matters of much public importance. One is that landlord's right of pre-emption, and the other the right of landlords other than the Government to realise rent as a public demand by a certificate under the Bengal Public Demands Recovery Act, 1913:—

(*i*) I shall firstly deal with the right of pre-emption. A large volume of opinion against it has been created among the *raiyats*. Although the landlords have in a very few cases exercised that right since its inception in 1928, yet much undue resentment has been expressed against it both through the press and on the platform. Though I hold that the exercise of that right by the landlord does not materially affect the *raiyat* but on the other hand may in certain cases be availed of to the benefit of the *raiyat* himself or of his co-sharers, yet I have thought it wise to meet the oppositionists. But I have considered it right that a co-sharer of the transferring *raiyat* should be given the right to pre-empt. Under the present law a co-sharer non-Muslim *raiyat* has not got the right of pre-emption which the Muslim *raiyat* has. Such a right of pre-emption seems to be very much reasonable, because the co-sharer tenant should in all fairness be given the option to purchase his co-sharer's right so that the holding may practically speaking remain intact without interference by strangers.

(*ii*) Secondly as to the right of private landlords to realise rent by certification I am convinced that under the cover of certification much oppression is committed upon the tenants. It is nothing but another form of distraint which has been abolished. It will be a very unpleasant thing to enumerate innumerable instances where such power has been misused or abused to the untold sufferings of the tenure-holders and *raiyats*. Repeated certification has at least in one case to our knowledge led to murder. In any case, an influential and rich private landlord's right to get rent cannot be strictly interpreted to be a public demand. The position does not logically alter even when a landlord's estate is managed by a Court of Wards. So I have, acting upon the principle of equity and justice, proposed for the repeal of the chapter in the Act, which provides for the power of such certification being given to a landlord, and for the denial of the said right to the Court of Wards also.

(17) I have also provided for some other amendments, which are minor and do not deserve mention here.

General control by the Commission.

The Commission, which represents all the interests concerned in the abatement of Smoke Nuisances, held 10 meetings in the year under review. It maintained contact with the various Smoke Departments, Fuel, Engineering and Research Institutions in Europe and America, and kept abreast of the latest progress in the scientific use of fuel towards the abatement of industrial smoke.

The density of smoke emitted from a furnace is determined by a reference to Ringelmann's Smoke Gauge, according to the table described below:—

Scale No. 1—No smoke.

Scale No. 2—Light grey smoke.

Scale No. 3—Grey smoke.

Scale No. 4—Very dark grey smoke.

Scale No. 5—Black smoke.

Scale No. 6—Dense black smoke.

For the purpose of smoke nuisance inspection, only scales Nos. 4, 5 and 6 are important. The emission of dense black smoke (scale No. 6) is prohibited. Scales Nos. 5 and 4 are related to scale No. 6 as follows:—

One minute of scale No. 5 (black smoke) is taken as equal to ·55 minutes of scale No. 6 (dense black smoke) and one minute of scale No. 4 (very dark grey) is taken as equal to ·37 minutes of scale No. 6.

On this basis, the average emission of smoke from each factory chimney in 1936 was the equivalent of ·08 minutes of dense black smoke per hour. In 1906, when the Commission assumed control the daily emission of black smoke per chimney was 13·1 minutes per hour.

During the year action was taken as under:—

Offences reported for departmental action—1,471.

Offences reported by telephone for departmental action—775.

Inspection and tests of installations—3,855.

Statutory warnings—9.

Prosecutions—16.

In addition to the above preventive action, 204 steamships and launches and 169 locomotives were reported to the local marine and railway authorities for their usual departmental action, which in all cases was readily undertaken.

The maximum fine imposed for offences under the Act was Rs. 150 and the minimum Rs. 10.

Of the 16 prosecutions which were launched (Appendix II), resort to the penal law was found necessary in 9 cases because furnaces, flues and chimneys were wrongfully constructed without first submitting plans for the approval of the Commission. It may be again stated that the Commission is advisory and not repressive. Well-designed plants are necessary for smoke prevention and fuel economy and it is not only obligatory but convenient to consult the Commission whose wide experience is always at the disposal of the public.

Detecting offensive chimneys.

A watch is kept on the smoke nuisance from the Central Smoke Observatory which is equipped with a telephone so that the owner or manager of an offensive chimney may be called up and the emission of smoke of prohibited density brought to his notice. Observations of locomotives, steamers, launches and minor industrial plants are taken locally. The total number of observations made during the year was 6,496.

The observation of smoke is carried out by the two Assistant Inspectors who alternately devote half a day to this duty. A Smoke Inspector is a qualified engineer and a combustion specialist, and his principal duties are to ascertain by tests, etc., the causes of defective installations and suggest means to remedy the same. His services are therefore chiefly required at the factory where he can advise on smoke prevention and fuel economy. Every case of smoke nuisance may call for a very particular solution according to varying conditions.

European and American smoke abatement organisations emloy Smoke Observers, in addition to Smoke Inspectors. In 1926, the Commission recommended to Government that Smoke Observers should be

appointed to relieve the Inspectors, so as to allow the latter to devote full time towards the technical duties of smoke abatement. Administrative approval was obtained in 1927 to this recommendation but the Commission regrets that financial stringency is still a hindrance to this important scheme being carried into effect.

Plans for furnaces, flues and chimneys.

Smoke prevention must begin at the furnace and not at the chimney top. Properly proportioned furnaces, flues and chimneys are the basic factors for efficient smoke abatement; they increase the power of the plant and reduce the overhead and fuel costs. If a plant is properly designed there should be no trouble in complying with the requirements of the Smoke Act. During the year the Commission examined and approved 72 plans, of which 61 were made in the office of the Commission, covering nearly all types of industrial furnaces. Plans were also supplied on request to mills outside the controlled area and to other provinces. The number of plans approved by the Commission since 1916, when the Act was amended, to govern construction, re-construction, alteration or addition to plants, now totals 1,312. The success attained by the Commission through this most important measure is reflected in the low average emission of smoke, per chimney, which has been steadily maintained for the last six years (Appendix I).

Complaints.

The Commission controls approximately an area of 80 square miles and cannot with its small staff keep in touch with every case of smoke nuisance. It has again been indebted to the public for bringing cases to notices by means of complaints. During the year 78 complaints were received against 86 in the preceding year. The Commission assures the public that on receipt of a complaint prompt and careful enquiry is made. Relief is given, wherever possible, and the Commission endeavour to see that industry is not subjected to unreasonable demands.

Domestic smoke.

There is no legislation for the control of domestic smoke. The bad effect of domestic smoke in Calcutta is accentuated because kitchen fireplaces, as a rule, have no chimneys and are adjacent to residential quarters into which they discharge smoke and grit. The worst conditions obtain in the cold weather months, when the absence of wind and rain leaves the air uncleansed; this causes the smoke to remain stationary for hours. The application of electricity and gas to meet domestic requirements has an important bearing on the general comfort and health of the public. It is pleasing to record that there is an increased demand by property owners for smokeless appliances as these contribute to the welfare of the city's health.

Electricity and gas are, however, beyond the means of a very large percentage of the population who use coke on the domestic grate. Smoke is emitted during the "lighting up" period, because of the use of paper, wood chips and shavings, cow dung cakes and paraffin to start a fire. Vigorous fanning to force a draught through the bars will reduce the quantity of smoke in a few minutes; alternatively, charcoal may be used as a smokeless medium for lighting up a coke fire.

Reduction of smoke by electricity and gas.

Electricity.

Electrical appliances both for commercial and domestic use, should be encouraged as permanent remedies for atmospheric pollution.

The Calcutta Electric Supply Corporation state that "electric motors totalling 13,320 h.p. have been installed within the area of this company's supply during the year 1936.

Many of these motors have been used in works which were previously driven by coal or oil, and the total number of such works which have changed over to electric drive is 23".

Gas.

The contribution towards solving the city's smoke problem by the Oriental Gas Company, Ltd., increases every year. They report a continued increase in the installation of cooking and water heating appliances for domestic purposes and have fitted up several large blocks of flats with gas appliances during the year.

The number of industrial concerns using gas for varied purposes has increased and the prospect of further development in this direction is very good.

During the year there was an increase of over 800 gas-consuming appliances which have replaced coal-burning *chulas* and furnaces. Further there is a recent demand for the use of gas coke in boilers and furnaces, etc., to displace coal.

Publicity.

No public health exhibition can be said to be a success that does not include a section giving publicity to the pollution of the air by smoke and its deleterious effects on health and property. As in past years, the Commission in collaboration with the Oriental Gas Company and the Calcutta Electric Supply Corporation had an exhibit for the 1936 "Calcutta Health Week". The section was well patronized by the public who showed a keen interest in the smoke exhibits and the appliances designed as permanent remedies for the "Smoke Evil". Leaflets on the abatement of domestic smoke were freely distributed.

Inspectorate.

On Mr. R. Grant, Chief Inspector and Secretary, proceeding on leave from the 2nd October 1936 for one year, Mr. O. J. Field was appointed to officiate in his place in addition to his own duties.

Conclusion.

The Commission records its grateful thanks to the various Smoke, Fuel and Engineering Research departments. Thanks are also due to those local owners, managers and engineers whose co-operation and valuable assistance have greatly helped the Commission, and to the technical staff for their energy and loyalty in carrying out the policy of the Commission.

Chief Inspector and Secretary (offg.).

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 13th December 1937.

Second Forecast of the Winter Rice Crop of Bengal, 1937-38.

(*Note.*—On an average of the five years ending 1935-36, the area under winter rice in Bengal has represented some 20·7 per cent. of the total area under winter rice in India.)

Character of the season.—In the first forecast issued in September last the weather was reported as having been fairly good for the crop. Seasonable showers in the latter part of September facilitated late transplantation with the result that more area was brought under cultivation. Good rainfall in the beginning of October was favourable for the final growth and flowering of transplanted winter paddy and in consequence a good outturn is expected except in the districts of Jessore, Khulna, Hooghly, Rajshahi, Malda, Bakarganj, Chittagong and Noakhali. The crop has been somewhat affected at places by insect-pests, floods and excessive rainfall.

Acreage.—According to the figures returned by the District Officers, the total area under winter rice is 15,818,900 acres as compared with 15,603,300 and 15,803,600 acres in the corresponding and final forecasts of last year.

Outturn.—From the summary of the district returns appended, it will be seen that three districts report a bumper crop, five districts a normal crop, ten districts a crop varying from 90 to 96 per cent. and the rest below 90 per cent. According to the above estimates the provincial outturn works out to 96 per cent. of the normal as against 100 and 106 per cent. in the corresponding and final forecasts of last year.

Accepting 96 per cent. as the provincial outturn, the gross yield of the crop, on the basis of a normal yield of 12½ maunds of clean rice (husked) per acre, is estimated at 6,973,200 tons this year as against 7,164,800 and 7,692,200 tons (both revised this year), respectively, in the corresponding and final forecasts of last year.

Director of Agriculture, Bengal.

Dacca, the 16th December 1937.

First Forecast of the Spring Oilseed Crops of Bengal, 1937-38.

(*Note.*—On an average of the five years ending 1935-36, the area under linseed in Bengal has represented some 3·4 per cent. and that under rape and mustard 11·9 per cent. of the total area under these crops in India.)

Explanatory.—Three forecasts are issued for the spring oilseed crops. The present deals with the area sown and the condition of the crops.

Area sown.—Oilseeds are principally grown in the Presidency, Rajshahi and Dacca Divisions. In the other two Divisions, the area under cultivation is small. The total area under these crops (excepting sesamum for which separate forecasts are issued) is returned at 932,100 acres this year as against 875,200 and 916,700 acres respectively in the corresponding and final forecasts of last year.

Character of the season.—Weather and rainfall conditions have generally been favourable for the growth of the crops and the present condition is satisfactory.

Director of Agriculture, Bengal.

Forecast of the Winter Til (Sesamum) Crop of Bengal, 1937-38.

(*Note.*—On an average of the five years ending 1935-36, the area under *til* in Bengal has represented some 3·2 per cent. of the total area under *til* in India.)

Character of the season.—Heavy rainfall is reported to have hampered sowing and affected the early growth of the crop in some minor districts. Subsequent effects of weather have been generally favourable Considerable damage has been done by the rainfall during the period from 30th November to 2nd December in Chittagong Hill Tracts as also in parts of Rajshahi by flood and excessive rainfall. The season has, on the whole, been fair.

Acreage.—The total area sown with the crop this year is estimated at 50,900 acres as against 52,000 acres last year.

Outturn.—According to the District Officers' estimate, the outturn of the crop for the province, as a whole, works out to 80 per cent. of the normal as against 86 per cent. last year.

Taking 7 1/20ths maunds as a normal rate of yield per acre, the gross outturn for the province is estimated at 10,500 tons this year as against 11,600 tons (revised) last year.

Third Forecast of the Cotton Crops of Bengal, 1937-38.

[*Note.*—On an average of the five years ending 1935-36, the area under the cotton crops in Bengal has represented some 0·3 per cent. of the total area under cotton in India.]

There are two crops, early and late. The "early" crop is chiefly grown in the Chittagong Hill Tracts and in the Tripura State and to a small extent in other districts. The "late" crop is grown in Bankura and Midnapore.

Character of the season.—Since the issue of the second forecast in October last, the weather continued generally favourable for early crop. The prospect of late variety is not very satisfactory.

Area sown.—The total area sown with early cotton is returned at 93,483 acres and that with late at 495 acres as against 93,222 (revised) and 755 acres, respectively, in the corresponding forecast of last year. The increase in area is chiefly due to revision of estimate in Tripura State.

Outturn.—The outturn of the early crop is estimated at 30,865 bales and the late crop at 69 bales as against 28,254 (revised) and 197 bales, respectively, in the corresponding forecast of last year.

" 182. When a *raiyat* or an under-*raiyat* having land as a *raiyat* holds his homestead in any village or municipal area his status in respect of his homestead shall be that of a *raiyat* and the incidents of his tenancy of such homestead shall be governed by the provisions of this Act applicable to *raiyats* irrespective of any other provisions in any other Act."

STATEMENT OF OBJECTS AND REASONS.

1. Since the amendment of the Bengal Tenancy Act in the year 1928, a violent agitation of the inexpressible grievances of the *raiyats* and others concerned is afloat; and it is found that in many cases some unnecessary privileges of the landholders are introduced and some superfluous rights are created for them at the sacrifice of the legitimate claim and interest of the *raiyats*, though the very cases of the amendment itself of the Act were due to remedying some vital grievances of the *raiyats*.

2. **Section 23.**—The section ought to be amended. It is generally used in preventing the *raiyats* from legitimate use of the land for his own convenience and benefit which justifies the amendment.

3. **Section 25.**—The omission of clause (*a*) is consequential upon the amendment of section 23.

4. The sections 26 and 26F, namely, the landlord's transfer fee and their right of pre-emption respectively newly created by the amendment of 1928 are the unprecedented and unthought of sections which have redoubled the grievances of the unfortunate *raiyats* not unnaturally enhancing the pecuniary troubles over and above the economic depression among the common mass embarrassed by heavy debts by positively lessening the value of the land to a great extent. Both the sections with a very few others are the machinery so to say of extorting money from the wretched tillers of the soil by a direct or indirect process. So the agitation among the *raiyats* is so keen and so the repeal *in toto* of both the sections is intended.

5. The alterations in sections 26C, 26E, 26-I, 26J necessarily follow owing to the total repeal of sections 26D and 26F.

6. **Section 68.**—The economic condition of the cultivators does not justify the imposition of 25 *per cent.* damages on them in case of non-payment of rent.

7. **Section 86A.**—The cases of diluvion occur for no fault of the tenants, so it is not reasonable that they should be made to pay rent for which they derive no benefit if they desire to keep lien on the land diluviated. The loss of rent to landlord entailed by diluvion is insignificant in comparison with the loss caused to the tenant. Moreover landlords' loss to some extent is generally compensated by fishery rights over the land, whereas the tenant is deprived of every benefit of it. Besides extinguishment of his right over the diluviated lands is not equitable.

8. **Section 88.**—Disagreement among co-tenants which is not uncommon to pay rent collectively causes great difficulties leading not unfrequently to litigations even sometimes to sale of the holding for arrears of rent. To avoid such difficulties the new amendment for division of tenancy which is not also prejudicial to the interest of the landlord is indispensable.

9. **Sections 158A, 158AA and 158AAA.**—The certificate procedure adopted by the private landlords empowered by those sections while they have ample power under sections 148, 148A, for rent suits, gives much hardships to the *raiyats*. To remove that long-standing grievance of the *raiyats* the repeal of this procedure is intended.

10. **Section 181.**—It seems quite unbecoming and unjustifiable for the *ghatwali* and other service tenure-holders who have been enjoying the land from time immemorial creating thereby a clear right of a *raiyat* to withdraw now from him that right. Hence the amendment.

11. **Section 182.**—The homestead of a *raiyat* or an under-*raiyat* was restricted to an unjustifiable limit. To remove that grievance it is intended that the *raiyat* holding land will have the same advantages in the municipal areas.

Amendment of section 195.

60. From section 195 of the said Act the clause (*b*) shall be omitted.

STATEMENT OF OBJECTS AND REASONS.

The Bengal Tenancy Act of 1885 was last amended on a large scale in 1928. Since then two important events have taken place which have necessitated a further general amendment: (1) the world economic depression, and (2) introduction of further Reforms on the basis of much larger representation of the tenants in the Legislatures.

The Provincial Economic Inquiry shows that the indebtedness of Bengalee *raiyats* amounts to nearly 200 crores of rupees. This crushing burden has constantly forced the *raiyat* to sell his holding, the mainstay of his livelihood, and as a result *mahajans* and other non-agriculturists have become the proprietor of the land. This makes the tiller of the soil a landless labourer whose poverty and stakeless life are a weakness and danger to the society.

The landlord gets 20 per cent. of the value of the land when transfer takes place and has also the right of pre-emption. The *raiyat* wants to get the maximum out of the sale, but a considerable portion has to be given to the landlord. This has been thought very unfair and abolition of landlords' fees has, therefore, been proposed in the present amendment. So also the right of pre-emption.

The heavy fall in price of produce has hard hit the peasant, but his outgoings have remained the same. So stopping of enhancement of rent on grounds of rise in price of staple crops since last 30 years, and reduction of rent in years of scarcity have been proposed.

The occupancy-*raiyat* has been proposed to be given the same rights as permanent tenure-holders, and the primary rights of a human being to build pucca house, dig wells, tanks, etc., have been given to him.

The co-sharer tenant is made to suffer for the defaults of his other sharers and the present amendment proposes to limit his liabilities to his own share, and that is why free and unrestricted subdivision of their holdings has been proposed.

The fishermen who produce a chief item of food of the Province has got no legal rights in water where they have to work for catching fish. Certain rights like those of a *raiyat* have been proposed to be given to the fishermen.

The damages for non-payment of rents have been reduced by one-fourth and the interest on arrear rents to 3 per cent. only, considering the low interest rate in the money market and the low paying capacity of the *raiyat*.

Though "Abwabs" (excess charges) have been declared illegal, they are still being realised freely from the helpless *raiyats*. So criminal action has been proposed to do away with this illegal drain on *raiyat's* purse as also of fishermen.

Criminal action has also been proposed in the case of non-granting of receipts by landlords to *raiyats*.

No two rent suits can be instituted by the landlord in course of 12 months for arrears of *kists*.

Certificate procedure of realising rent has been proposed to be abolished.

Certain burdens on the *raiyat* as cost of litigation forced on him for cumbrous laws have been proposed to be removed.

The right of pre-emption has been proposed to be given first to a co-sharer tenant, as prevails amongst the Muslims in Bengal, and Hindus in Bihar, too.

These and some other minor amendments have been proposed.

"Every zemindar must set apart at least 5 *bighas* of pasture lands in every village, before he will be entitled to get any rent from the tenants of said village."

STATEMENT OF OBJECTS AND REASONS.

The object of the proposed amendment is to make the tenants real masters of their lands, to rescue them from the whims of the zemindars and to make their rights more secure and stable. To remove unnecessary and highhanded restrictions as imposed by the present Act on the free use of the tenants' lands, is also one of the reasons, for the introduction of this Bill. The unwholesome provisions of the present Act are considered as one of the reasons, which has brought ahead the present economic distress of the tenantry of Bengal and this Bill seeks to ameliorate their conditions to a large extent. The landlord's transfer-fee, the zemindars' right of pre-emption are matters, which are inconsistent with the tenants' unqualified proprietorship of the lands and therefore those provisions must go. The rent of the lands have gone so high that it is well-nigh impossible for the tenants to enjoy the lands without running into debts; it is therefore suggested that further enhancement should cease and the rent should be reduced. The other amendments also are directed towards the fulfilment of the one common object, viz., to improve in all possible ways the hard lot of the rack-rented tenants of Bengal.

37. Clause (*g*) of sub-section (*1*) of section 178 of the said Act shall be modified and substituted by the following :—

"Shall take away or limit the right of any tenant to transfer his holding or any share or portion thereof in accordance with this Act."

STATEMENT OF OBJECTS AND REASONS.

Fixity of tenure, stability of rent, freedom in the matter of transfer and security from eviction are necessary incidents of immovable property. Property has become precious, and proprietors have become prosperous wherever these incidents have existed, it is precisely the absence of these attributes of real property that has undermined tenancy rights in rural Bengal, and society, of which peasantry is the pivot, cannot look up from its degrading misery, unless thorough overhauling changes are introduced into the existing Tenancy Law, with a view to securing greater stability and immunity for the rights of tenantry.

I

The landlord's right to have a fee when a tenant's tenure or holding is transferred creates an unnecessary vested interest, and this source of unearned income tends to make him greedy for quick transfers of a tenure or holding from one tenant to another. On the other hand, property loses a fair value, since the interest of a permanent third party stands as a load upon it between the vendor and the purchaser. Experience shows that the dread of landlord's fees scares many an intending bidder both in private sale and in auction. Landed property in villages has thus become more an inevitable burden to carry than an asset to enjoy, use and utilise. The economic misery of Bengal in these days owes a great deal to this unnatural and pernicious system.

Hence proposed amendments of relevant provisions in Chapters III, IVA and V of the Act.

The landlord's right of pre-emption is only another name for a right of vetoing every transfer by a tenant and it gives him an improper choice of tenants. The existing law, by disturbing a tenant's option to transfer in favour of a person or party of his choice for any consideration, pecuniary or otherwise, cripples the independence of the vendor, and by impeding a person's or party's right to have and to acquire property according to his or its choice and convenience thwarts the just claims of a vendee.

This right of the landlord to frustrate transfers cannot but be detrimental to the freedom and interest of the tenantry as a class, and he always can, if he likes, use this right as a handle for undue advantages.

Hence the proposed amendments of the relevant sections in Chapter V of the Act.

II

Right to get enhancement of rent on the ground of rise in price of staple food crops is unjust and hard. In the first place such a rise is not an absolute blessing for the tenant who has got to pay more for his own purchases, and the conditions of the market are determined by so many perceived and unperceived factors that a rise in price is more of the nature of an accident which brings similar advantages and disadvantages for all classes; and unless a tenant's happiness is to be grudged, there is no justice in taxing his supposed increase in earning. In the second place, since the landlord is not subjected to any additional payment on this score, he ought not to get any extra advantage at the cost of the tenant.

Fluvial action is similarly a nature's benefit—also an accident—and if a tenant gets the benefit of that a landlord does not stand to lose and there is no justice in the latter's getting the enhancement, as allowed by present law.

Experience shows that stability of rent suffers considerably from the existing arrangements of law. Although a tenant has been given the corresponding right of getting a reduction of rent on the ground of fall in prices, experience shows that a tenant can seldom come to court for such relief, and a landlord would never agree to such reduction at his own instance or outside court.

Hence, in order to ensure stability, amendments are proposed of relevant portions of Chapter V which deal with enhancement and reduction of rent.

III.

Without disturbing the statutory distinctions among occupancy-*raiyats*, non-occupancy-*raiyats* and under-*raiyats* changes have been proposed, as eminently called for, in Chapters VI, VII, VIII, IX of the Act with a view to approximating their normal incidents to a more or less uniform standard. Artificial distinctions are detrimental to a healthy growth of prosperous peasantry, and these distinctions have lost much of their original meaning, since it is found that in practical working *raiyats* of all classes function almost similarly. Their problems are so common and inseparable from one another that a uniform system of law should protect them at least in the matter of transfer and ejectment. Gradual standardisation of tenure and fixity of rent are signs of growing peasantry, and law should be accelerating. It is high time that the veil of insecurity and uncertainty in the matter of status and rights should be lifted from the face of by far a large portion of agricultural population.

IV.

Right of appeal is a very valuable right of a subject. It is short-sightedness to deny appeals in suits of small claims ; for the smaller a claim of the landlord the greater is the chance that the tenant is poor. The poorer a tenant the stronger the need for facilities of law. It is patent that Munsifs will be less circumspect in cases which cannot go to higher courts. The results of execution cases are more frightful. A wrong decree in a rent suit ordinarily means monetary loss for the tenant, but a wrong decision in an execution case, which is not open to appeal, kills the property, possibly the only small property of a poor tenant, possibly his homestead.

Hence the proposal for abolishing section 153.

V.

Chapter XIIIA is proposed to be abolished, since it is evidently responsible for a state of tyranny in society. It is significant that the original framers of the Act did not contemplate giving such undue and unnecessary facilities to landlords. It was in 1907 that this Chapter was introduced for benefiting a select class of big zamindars. Economic conditions of tenants were far better than they are now. Ordinary civil courts are good enough for the vast majority of landlords, and there is no reason why a picked up class of them—those who are undoubtedly much better off than the rests should get the benefit of a special system of expeditious realisation.

Comparatively less solvent landlords do not ordinarily come to court till there is risk of limitation, whereas the less needy landlords—those vested with certificate powers—are fired with an ambition for making up-to-date collection of their dues. Experience shows that their zeal, amounting to greed, does not yield even to extreme misery of starving tenants.

Certificate power has thus been an engine of oppression in the hands of solvent landlords and the less fortunate landlords suffer considerably due to this premium of advantage given to their fortunate brethren. Their collections are bound to be low, since a tenant who strains his utmost to ward off the distress levied by landlords exercising summary power, lest the kitchen utensils would be seized, cannot possibly have any residuary grain of resource left for these other landlords.

It is also well known that tenants do not get their ordinary reliefs before a certificate court—which functions practically as an execution court—reliefs which otherwise they could have had in an ordinary civil court.

Chapter XIIIA offends against the principles of justice and equity.

VI.

The notice as provided for in order 21, rule 66 of the Civil Procedure Code, 1908, should be introduced into section 163 of the Act. Landlords frequently undervalue the tenants' property, and the order of combined attachment and proclamation brings such a dread with it that the tenant has not time to think of any objection on the ground of inadequacy. Courts also ordinarily do not like to stop the sale before deciding the matter of valuation. Landlords venture to go to the bid at their risk, but a tenant cannot allow the sale to take place and then fight out his objections. He is invariably forced to compromise his right, and get an adjournment after waiving his legitimate objections. This should be remedied.

VII.

The amendment of section 178 of the Act is necessary for maintaining consistency with other provisions of the Act.

(*Clauses 3—5.*)

(5) for clause (*e*), the following shall be substituted, namely :—

"(*e*) In the case of transfer by bequest of a holding or a portion or share thereof, to one *per cent.* of the value thereof as determined by the Court for the purposes of stamp duty for the grant of probate or letters of administration or to a sum equal to the annual rent of the holding or of the portion or share transferred whichever is less."

Amendment of section 26E.

3. In section 26E of the said Act for the words " twenty *per cent.*" the words " one *per cent.*" shall be substituted, for the words " five times " the words " a sum equal to " shall be substituted and for the word " greater " the word " less " shall be substituted.

Substitution of new section for section 26F.

4. For section 26F of the said Act, the following section shall be substituted, namely :—

" 26F. Landlord's transfer fee as provided under sections 26D and 26E shall under no circumstances be less than eight annas."

Amendment of section 88.

5. Section 88 of the said Act shall be amended as follows, namely :—

Sub-clause (*i*) in the fourth paragraph, *i.e.*, the words " If the division results in the creation of unreasonably small holdings " shall be deleted.

In sub-clause (*ii*) of the same paragraph the words and figures " Rs. 2-8 " and " Rs. 4 " shall be substituted, respectively, by the words and figures " Re. 1 " and " Rs. 2 ".

The last paragraph of the said section, namely, the portion—

" Every order of the Court directing division of the tenancy or distribution of rent shall also direct payment by the applicant to the landlord of a mutation fee being equal to twice the amount of rent made payable by the tenant in case of tenures, and four times such rent in case of holdings"

shall be deleted.

STATEMENT OF OBJECTS AND REASONS.

Section 26 of the Bengal Tenancy (Amendment) Act, 1928, has reduced the value of lands of Bengal to a considerable extent and has helped a great deal to foster estrangement of good feelings between the landlords and tenants. Immediate amendment of this section is therefore a dire necessity. Section 88 of the Bengal Tenancy (Amendment) Act, 1928, provides sufficient encouragement to the dishonest persons for non-payment of their rents and discourage regular payment of rents of joint landed properties by the honest tenants, and it is therefore a source of great disadvantage to the landlords. The present economic position of Bengal does not justify the joint property and its joint liability system and it is sure and certain that comparative smaller holdings will facilitate regular realization of fees from the poor tenants who alone shall be responsible for his rent. The landlords need not therefore be anxious for the creation of unreasonably small holdings. It is true that the Bengal Tenancy (Amendment) Act, 1928, requires thorough overhauling and it is known to all that the Hon'ble Revenue Minister is preparing a Government Bill to this effect but as this will require time and as the tenants are in urgent and immediate need of relief, I place this Bill before the House with a hope that it will be considered and passed in this very session without referring it to any select committee and thus provide slight relief to the wretched tenants of Bengal. The proposed amendment is not of course a dainty dish of *pollaw korma* relief measure to the hungry tenants of Bengal but is a sort of *Sagu Barley* dietary relief measure for the long suffering tenants of the province. It is like a straw to the drowning Bengali tenants in the floods of starvation, misery and indebtedness.

STATEMENT OF OBJECTS AND REASONS.

The object of the Bill is to remedy the evil effects of some of the provisions introduced in the Bengal Tenancy (Amendment) Act, 1928, and do away with some of the iniquitous differences amongst different kinds of tenants at present in existence under the Bengal Tenancy Act and thereby rehabilitate the economic life of the actual tiller of the soil. The abnormal fall in the price of the staple food crops, jute and other crops has hit the *raiyat* hard and the purchasing capacity of the *raiyat* has been so reduced that it is essential that some of the sections of the present Bengal Tenancy Act should be amended to relieve the *raiyat* to some extent from his present economic thraldom.

The Bill that is being introduced cannot effectively deal with all the ills from which the *raiyat* is suffering, but the provisions would to some extent relieve him from his present distress. It is superfluous to advance reasons for desiring to improve the condition of the agriculturist for it is agreed on all hands that the economic life of the nation depends upon the economic prosperity of the *raiyat*. It is he who maintains the entire superstructure of our civilisation and culture and hence on grounds of equity and political justice as well as of the economic self-interest of the community as a whole, it is essential that the condition and status of the *raiyat* must be improved.

STATEMENT OF OBJECTS AND REASONS.

The object of the Bill is to remedy the evil effects of some of the provisions introduced in the Bengal Tenancy (Amendment) Act, 1928, and do away with some of the iniquitous differences amongst different kinds of tenants at present in existence under the Bengal Tenancy Act and thereby rehabilitate the economic life of the actual tiller of the soil. The abnormal fall in the price of the staple food crops, jute and other crops has hit the *raiyat* hard and the purchasing capacity of the *raiyat* has been so reduced that it is essential that some of the sections of the present Bengal Tenancy Act should be amended to relieve the *raiyat* to some extent from his present economic thraldom.

The Bill that is being introduced cannot effectively deal with all the ills from which the *raiyat* is suffering, but the provisions would to some extent relieve him from his present distress. It is superfluous to advance reasons for desiring to improve the condition of the agriculturist for it is agreed on all hands that the economic life of the nation depends upon the economic prosperity of the *raiyat*. It is he who maintains the entire superstructure of our civilisation and culture and hence on grounds of equity and political justice as well as of the economic self-interest of the community as a whole, it is essential that the condition and status of the *raiyat* must be improved.

STATEMENT OF OBJECTS AND REASONS.

The object of the Bill is to remedy the evil effects of some of the provisions introduced in the Bengal Tenancy (Amendment) Act, 1928, and do away with some of the iniquitous differences amongst different kinds of tenants at present in existence under the Bengal Tenancy Act and thereby rehabilitate the economic life of the actual tiller of the soil. The abnormal fall in the price of the staple food crops, jute and other crops has hit the *raiyat* hard and the purchasing capacity of the *raiyat* has been so reduced that it is essential that some of the sections of the present Bengal Tenancy Act should be amended to relieve the *raiyat* to some extent from his present economic thraldom.

The Bill that is being introduced cannot effectively deal with all the ills from which the *raiyat* is suffering, but the provisions would to some extent relieve him from his present distress. It is superfluous to advance reasons for desiring to improve the condition of the agriculturist for it is agreed on all hands that the economic life of the nation depends upon the economic prosperity of the *raiyat*. It is he who maintains the entire superstructure of our civilisation and culture and hence on grounds of equity and political justice as well as of the economic self-interest of the community as a whole, it is essential that the condition and status of the *raiyat* must be improved.

STATEMENT OF OBJECTS AND REASONS.

Since the last general amendment of the Bengal Tenancy Act of 1885 made in 1928 there has been a persistent demand for further amendment of the Act to the greater benefits of the tenants both from the general public and the tenants. In our opinion the present economic depression in the country is more responsible for such demand than the ordinary conditions under which tenancies are held. To illustrate the above it may be said—

(*i*) that unless the crushing indebtedness of the *raiyats* caused by continued fall in the prices of agricultural commodities would not force the *raiyats* to sell their holdings or portions thereof, the *raiyats* would not demand unfettered right to transfer the same, because they know in the heart of their hearts that unfettered transferability of their holdings is very likely to turn them as landless labour at the instance of the money-lenders; but now that they are forced to sell their holdings they must naturally get the maximum of the present abnormally low price of their lands, to which landlord's fee is certainly a bar, and that is why they demand the withdrawal of the fetter of landlord's transfer fee:

(*ii*) that the prevailing rate of rent which they had till recently been paying without grudge has become excessive and disproportionate to the value of their land-products owing to the heavy fall in their prices, and that is why they demand that the present rate of rent must be reduced: and

(*iii*) that no co-sharer tenant, however small his holding may be, himself being poverty-stricken can bear the additional burden of paying the rent due by his comparatively more distressed co-sharers to save the holding from sale for arrears of rent due to all the co-sharer tenants, and that is why they demand free and unrestricted sub-division of their holdings.

Besides the above, in these days of progressive democracy, all schools of political thought consider it high time to recognise absolute right of the tillers of the soil to the land, which they till with the sweat of their brow to produce food for the human race as well as other articles for increasing the nation's wealth. In order to keep with the time and also to meet the aforesaid and other reasonable demands of the tenants I have thought it expedient to further amend the tenancy Act of our province. I am conscious of the fact that within the four corners of the Act, which is based on the principle of transference of the right to land firstly from the State to the proprietors and then from the proprietors to the tenants, much cannot be done to relieve the present distress of the tenants in general. I have, however, considered it expedient to loosen every hard knot as much as may be permissible under the present constitutional structure of the Act to give all possible relief to the producers of our food from land and water.

Proceeding on that principle I have proposed to amend the Act as follows:—

(1) I have thought it advisable to reduce the landlord's transfer fee payable by *raiyats* to a fixed nominal sum payable to the landlord for the required change of his books, and, consistently with it, modification of the landlord's fee payable by tenure-holders also has been thought expedient. I have, therefore, proposed the amendment of the sections of the Act relating to the payment of landlord's fee and landlord's transfer fee by reducing both kinds of fee to the fixed sum of two rupees.

(2) The prevailing rate of rent has appeared to me to be an undue pressure, and I have thought it reasonable to reduce the rate by at least the amount by which it has been enhanced on the ground of the rise in the price of staple food crops in the course of the last 30 years. And as regards the cases where the tenants hold their tenancies under rack-rents, I have amended section 112 of the Act, so that upon the application of one hundred tenants of a locality where such rack-rent prevails, the Government shall require a Revenue Officer to settle fair and equitable rent payable by the tenants of the locality. But at the same time I have had regard to the probability of the present system of private landlordism being abolished in near future and of the rents payable by the *raiyats* becoming the main land-revenue of this province, to be utilised for the benefit of the *raiyats* themselves, and accordingly I have thought it wise to provide for the enhancement of the rent up to the limit of one-fifth of the net value of the produce of the land. I have, however, thought it right to deny the landlord, whether a private person or the Government, to get any unearned increment of rent. I have therefore considered it fit to define a fair and equitable rate of rent payable by a *raiyat* by wiping out the general increment of rent made within the last 30 years and to provide for earned increment only of rent as well as for reduction of rent on similarly fair grounds, and have also considered it right to make consistently fair provision for the reduction and increment of the rent payable by the tenure-holders. I have accordingly proposed suitable amendments of the sections of the Act relating to the rent payable by the *raiyats* and tenure-holders and to the enhancement and reduction thereof.

(3) I have also for the aforesaid reasons provided for free and unrestricted sub-division of the holdings and tenures.

(4) I have seriously considered the legal status of the *bona fide* fishermen, who produce no less an important item of food than rice for the people of this province and, in the absence of any special legislation as to their rights and privileges, who are now absolutely at the mercy of their lessors, and who as producers of an important item of food can reasonably claim protection under the law of the land. I have accordingly proposed for them a recognised right almost like that of a *raiyat*, and have inserted a few provisions as to their status and rights into the Bill.

(5) While proposing to confer additional rights and privileges to the *raiyats* I have not forgotten the cases of the tenure-holders who do not hold permanent right to the land. While giving the *raiyats* and under-*raiyats* the right of transferability and heritability I consider it logical and fair to give the same right to the non-permanent tenure-holders also. I have, therefore, proposed amendments to that effect.

(6) The transference of the occupancy-holding having been made as much free as that of the *raiyati* holding at fixed rent or rate of rent, and other rights and privileges of those two kinds of *raiyats* being the same I have considered it unnecessary to retain a separate class of *raiyats* under the denomination of "*raiyat* at fixed rate or rate of rent." I have therefore proposed for its omission from the Act.

(7) I have considered the insecurity of the tenancies of the non-occupancy-*raiyats* and under-*raiyats* also with all fairness due to them, and have proposed to remove the clauses by which they are ejectable on the ground of non-payment of rent.

(8) I have moreover made provision for the under-*raiyats* acquiring the right of occupancy by occupation for continued twelve years.

(9) I have also adopted measures to prevent the growth of a new kind of bourgeois in the name of *raiyats* by making provisions under which a *raiyat* who shall possess more than 50 standard bighas of land or who shall convert himself into a rent-receiver in respect of the major portion of his holding or who shall settle lands with an under-*raiyat* to erect a dwelling house thereon, shall cease to be a *raiyat* and shall become a tenure-holder and the tenants under him shall become *raiyats*. The principle underlying these provisions is to give the greatest benefit to the actual tillers of the soil.

(10) The rent-paying capacity of the tenants in general having considerably diminished, I consider it a great hardship to impose interest on the arrears of rent at the rate of 12½ per cent. per annum and have therefore proposed to reduce it by half; for the same reason I have proposed to reduce the rate of compensation on arrears of rent by half.

(11) It being a general complaint that in spite of the realisation of any excess over the actual rent and cess being made illegal by the present Act, such illegal excesses, *e.g.*, *abwabs*, *taharis*, etc., are still being realised by some landlords and their agents. Although there is a provision in the Act affording the tenant the right to sue the landlord and his agent for compensation for exaction of the aforesaid excesses, such right is not exercised for fear of costly litigation in civil courts. The tenants have consequently remained as much victims to the greedy landlords and their agents as before. I have, therefore, proposed criminal action against the exacting landlord or his agent, as the case may be, by inserting a new clause to that effect.

(12) Non-granting of receipts of rent to the poor tenants by many landlords and their agents is still continuing as before. This is causing duplicate payments resulting in great loss to the poverty-stricken tenants. In spite of the provision for those tenants to get compensation for such action from the landlord and his agent, the tenants owing to their poverty cannot take costly legal steps for that purpose. I have therefore proposed criminal action in such cases also by inserting new clauses to that effect.

(13) Though generally the landlords do not sue their tenants for arrears of rent at the end of every instalment of three months, yet there are many instances where the landlord in order to feed his grudge against his tenant for private reasons sues the tenant for arrears of rent in quick succession with the object of oppressing him to the point of evacuation from the land. In order to protect the tenant against such cases of oppression I have proposed for enlarging the interval of two successive suits for rent from three to twelve months.

(14) I have observed that where a tenant holding land under a registered lease pays rent in kind he is put to great hardship when his rent falls in arrears and his landlord sues him for that. What happens is that even when the rent payable by a *burga raiyat* in a particular year is, say, 5 *cottahs* of paddy, the court decrees the sum of, say, Rs. 20, the amount mentioned in the lease for the purpose of registration, as the value of that year's rent, on the ground that evidence to prove that the said recital in the lease was not intended by the parties to be interpreted as the actual value of the rent is barred by section 92 of the Evidence Act. Similar hardship happens in the case of tenants paying a fixed quantity of crop as rent. In order to remove this inequity and hardship on the *raiyat* I have proposed amendment to that effect.

(15) I have also observed that where a co-sharer landlord sues his tenant for arrears of rent and makes his co-sharers, who may be large in number, defendants in the suit, the costs of making them defendants in many cases exceed the plaintiff's claim by a good many times, and the unfortunate tenant who was not responsible for such course of action on the part of his landlord is forced by a legal decree to bear the unbearable burden of the costs of the suit. I have proposed measures to render such costs non-payable by the tenant.

(16) I shall now refer to the following two matters of much public importance. One is that landlord's right of pre-emption, and the other the right of landlords other than the Government to realise rent as a public demand by a certificate under the Bengal Public Demands Recovery Act, 1913:—

(*i*) I shall firstly deal with the right of pre-emption. A large volume of opinion against it has been created among the *raiyats*. Although the landlords have in a very few cases exercised that right since its inception in 1928, yet much undue resentment has been expressed against it both through the press and on the platform. Though I hold that the exercise of that right by the landlord does not materially affect the *raiyat* but on the other hand may in certain cases be availed of to the benefit of the *raiyat* himself or of his co-sharers, yet I have thought it wise to meet the oppositionists. But I have considered it right that a co-sharer of the transferring *raiyat* should be given the right to pre-empt. Under the present law a co-sharer non-Muslim *raiyat* has not got the right of pre-emption which the Muslim *raiyat* has. Such a right of pre-emption seems to be very much reasonable, because the co-sharer tenant should in all fairness be given the option to purchase his co-sharer's right so that the holding may practically speaking remain intact without interference by strangers.

(*ii*) Secondly as to the right of private landlords to realise rent by certification I am convinced that under the cover of certification much oppression is committed upon the tenants. It is nothing but another form of distraint which has been abolished. It will be a very unpleasant thing to enumerate innumerable instances where such power has been misused or abused to the untold sufferings of the tenure-holders and *raiyats*. Repeated certification has at least in one case to our knowledge led to murder. In any case, an influential and rich private landlord's right to get rent cannot be strictly interpreted to be a public demand. The position does not logically alter even when a landlord's estate is managed by a Court of Wards. So I have, acting upon the principle of equity and justice, proposed for the repeal of the chapter in the Act, which provides for the power of such certification being given to a landlord, and for the denial of the said right to the Court of Wards also.

(17) I have also provided for some other amendments, which are minor and do not deserve mention here.

STATEMENT OF OBJECTS AND REASONS.

Since the last general amendment of the Bengal Tenancy Act of 1885 made in 1928 there has been a persistent demand for further amendment of the Act to the greater benefits of the tenants both from the general public and the tenants. In our opinion the present economic depression in the country is more responsible for such demand than the ordinary conditions under which tenancies are held. To illustrate the above it may be said—

(*i*) that unless the crushing indebtedness of the *raiyats* caused by continued fall in the prices of agricultural commodities would not force the *raiyats* to sell their holdings or portions thereof, the *raiyats* would not demand unfettered right to transfer the same, because they know in the heart of their hearts that unfettered transferability of their holdings is very likely to turn them as landless labour at the instance of the money-lenders; but now that they are forced to sell their holdings they must naturally get the maximum of the present abnormally low price of their lands, to which landlord's fee is certainly a bar; and that is why they demand the withdrawal of the fetter of landlord's transfer fee:

(*ii*) that the prevailing rate of rent which they had till recently been paying without grudge has become excessive and disproportionate to the value of their land-products owing to the heavy fall in their prices, and that is why they demand that the present rate of rent must be reduced: and

(*iii*) that no co-sharer tenant, however small his holding may be, himself being poverty-striken, can bear the additional burden of paying the rent due by his comparatively more distressed co-sharers to save the holding from sale for arrears of rent due to all the co-sharer tenants, and that is why they demand free and unrestricted subdivision of their holdings.

Besides the above, in these days of progressive democracy, all schools of political thought consider it high time to recognise absolute right of the tillers of the soil to the land, which they till with the sweat of their brow to produce food for the human race as well as other articles for increasing the nation's wealth. In order to keep with the time and also to meet the aforesaid and other reasonable demands of the tenants I have thought it expedient to further amend the tenancy Act of our province. I am conscious of the fact that within the four corners of the Act, which is based on the principle of transference of the right to land firstly from the State to the proprietors and then from the proprietors to the tenants, much cannot be done to relieve the present distress of the tenants in general. I have, however, considered it expedient to loosen every hard knot as much as may be permissible under the present constitutional structure of the Act to give all possible relief to the producers of our food from land and water.

Proceeding on that principle I have proposed to amend the Act as follows:—

(1) I have thought it advisable to reduce the landlord's transfer fee payable by *raiyats* to a fixed nominal sum payable to the landlord for the required change of his books, and, consistently with it, modification of the landlord's fee payable by tenure-holders also has been thought expedient. I have, therefore, proposed the amendment of the sections of the Act relating to the payment of landlord's fee and landlord's transfer fee by reducing both kinds of fee to the fixed sum of two rupees.

(2) The prevailing rate of rent has appeared to me to be an undue pressure, and I have thought it reasonable to reduce the rate by at least the amount by which it has been enhanced on the ground of the rise in the price of staple food crops in the course of the last 30 years. And as regards the cases where the tenants hold their tenancies under rack-rents, I have amended section 112 of the Act, so that upon the application of one hundred tenants of a locality where such rack-rent prevails, the Government shall require a Revenue Officer to settle fair and equitable rent payable by the tenants of the locality. But at the same time I have had regard to the probability of the present system of private landlordism being abolished in near future and of the rents payable by the *raiyats* becoming the main land-revenue of this province, to be utilised for the benefit of the *raiyats* themselves, and accordingly I have thought it wise to provide for the enhancement of the rent up to the limit of one-fifth of the net value of the produce of the land. I have, however, thought it right to deny the landlord, whether a private person or the Government, to get any unearned increment of rent. I have therefore considered it fit to define a fair and equitable rate of rent payable by a *raiyat* by wiping out the general increment of rent made within the last 30 years and to provide for earned increment only of rent as well as for reduction of rent on similarly fair grounds, and have also considered it right to make consistently fair provision for the reduction and increment of the rent payable by the tenure-holders. I have accordingly proposed suitable amendments of the sections of the Act relating to the rent payable by the *raiyats* and tenure-holders and to the enhancement and reduction thereof.

(3) I have also for the aforesaid reasons provided for free and unrestricted sub-division of the holdings and tenures.

(4) I have seriously considered the legal status of the *bona fide* fishermen, who produce no less an important item of food than rice for the people of this province and, in the absence of any special legislation as to their rights and privileges, who are now absolutely at the mercy of their lessors, and who as producers of an important item of food can reasonably claim protection under the law of the land. I have accordingly proposed for them a recognised right almost like that of a *raiyat*, and have inserted a few provisions as to their status and rights into the Bill.

(5) While proposing to confer additional rights and privileges to the *raiyats* I have not forgotten the cases of the tenure-holders who do not hold permanent right to the land. While giving the *raiyats* and under-*raiyats* the right of transferability and heritability I consider it logical and fair to give the same right to the non-permanent tenure-holders also. I have, therefore, proposed amendments to that effect.

(6) The transference of the occupancy-holding having been made as much free as that of the *raiyati* holding at fixed rent or rate of rent, and other rights and privileges of those two kinds of *raiyats* being the same I have considered it unnecessary to retain a separate class of *raiyats* under the denomination of "*raiyat* at fixed rate or rate of rent." I have therefore proposed for its omission from the Act.

(7) I have considered the insecurity of the tenancies of the non-occupancy-*raiyats* and under-*raiyats* also with all fairness due to them, and have proposed to remove the clauses by which they are ejectable on the ground of non-payment of rent.

(8) I have moreover made provision for the under-*raiyats* acquiring the right of occupancy by occupation for continued twelve years.

(9) I have also adopted measures to prevent the growth of a new kind of bourgeois in the name of *raiyats* by making provisions under which a *raiyat* who shall possess more than 50 standard bighas of land or who shall convert himself into a rent-receiver in respect of the major portion of his holding or who shall settle lands with an under-*raiyat* to erect a dwelling house thereon, shall cease to be a *raiyat* and shall become a tenure-holder and the tenants under him shall become *raiyats*. The principle underlying these provisions is to give the greatest benefit to the actual tillers of the soil.

(10) The rent-paying capacity of the tenants in general having considerably diminished, I consider it a great hardship to impose interest on the arrears of rent at the rate of 12½ per cent. per annum and have therefore proposed to reduce it by half; for the same reason I have proposed to reduce the rate of compensation on arrears of rent by half.

(11) It being a general complaint that in spite of the realisation of any excess over the actual rent and cess being made illegal by the present Act, such illegal excesses, *e.g.*, *abwabs*, *taharis*, etc., are still being realised by some landlords and their agents. Although there is a provision in the Act affording the tenant the right to sue the landlord and his agent for compensation for exaction of the aforesaid excesses, such right is not exercised for fear of costly litigation in civil courts. The tenants have consequently remained as much victims to the greedy landlords and their agents as before. I have, therefore, proposed criminal action against the exacting landlord or his agent, as the case may be, by inserting a new clause to that effect.

(12) Non-granting of receipts of rent to the poor tenants by many landlords and their agents is still continuing as before. This is causing duplicate payments resulting in great loss to the poverty-stricken tenants. In spite of the provision for those tenants to get compensation for such action from the landlord and his agent, the tenants owing to their poverty cannot take costly legal steps for that purpose. I have therefore proposed criminal action in such cases also by inserting new clauses to that effect

(13) Though generally the landlords do not sue their tenants for arrears of rent at the end of every instalment of three months, yet there are many instances where the landlord in order to feed his grudge against his tenant for private reasons sues the tenant for arrears of rent in quick succession with the object of oppressing him to the point of evacuation from the land. In order to protect the tenant against such cases of oppression I have proposed for enlarging the interval of two successive suits for rent from three to twelve months.

(14) I have observed that where a tenant holding land under a registered lease pays rent in kind he is put to great hardship when his rent falls in arrears and his landlord sues him for that. What happens is that even when the rent payable by a *burga raiyat* in a particular year is, say, 5 *cottahs* of paddy, the court decrees the sum of, say, Rs. 20, the amount mentioned in the lease for the purpose of registration, as the value of that year's rent, on the ground that evidence to prove that the said recital in the lease was not intended by the parties to be interpreted as the actual value of the rent is barred by section 92 of the Evidence Act. Similar hardship happens in the case of tenants paying a fixed quantity of crop as rent. In order to remove this inequity and hardship on the *raiyat* I have proposed amendment to that effect.

(15) I have also observed that where a co-sharer landlord sues his tenant for arrears of rent and makes his co-sharers, who may be large in number, defendants in the suit, the cost of making them defendants in many cases exceed the plaintiff's claim by a good many times, and the unfortunate tenant who was not responsible for such course of action on the part of his landlord is forced by a legal decree to bear the unbearable burden of the cost of the suit. I have proposed measures to render such costs non-payable by the tenant.

(16) I shall now refer to the following two matters of much public importance. One is that landlord's right of pre-emption, and the other the right of landlords other than the Government to realise rent as a public demand by a certificate under the Bengal Public Demands Recovery Act, 1913:—

(*i*) I shall firstly deal with the right of pre-emption. A large volume of opinion against it has been created among the *raiyats*. Although the landlords have in a very few cases exercised that right since its inception in 1928, yet much undue resentment has been expressed against it both through the press and on the platform. Though I hold that the exercise of that right by the landlord does not materially affect the *raiyat* but on the other hand may in certain cases be availed of to the benefit of the *raiyat* himself or of his co-sharers, yet I have thought it wise to meet the oppositionists. But I have considered it right that a co-sharer of the transferring *raiyat* should be given the right to pre-empt. Under the present law a co-sharer non-Muslim *raiyat* has not got the right of pre-emption which the Muslim *raiyat* has. Such a right of pre-emption seems to be very much reasonable, because the co-sharer tenant should in all fairness be given the option to purchase his co-sharer's right so that the holding may practically speaking remain intact without interference by strangers.

(*ii*) Secondly as to the right of private landlords to realise rent by certification I am convinced that under the cover of certification much oppression is committed upon the tenants. It is nothing but another form of distraint which has been abolished. It will be a very unpleasant thing to enumerate innumerable instances where such power has been misused or abused to the untold sufferings of the tenure-holders and *raiyats*. Repeated certification has at least in one case to our knowledge led to murder. In any case, an influential and rich private landlord's right to get rent cannot be strictly interpreted to be a public demand. The position does not logically alter even when a landlord's estate is managed by a Court of Wards. So I have, acting upon the principle of equity and justice, proposed for the repeal of the chapter in the Act, which provides for the power of such certification being given to a landlord, and for the denial of the said right to the Court of Wards also.

(17) I have also provided for some other amendments, which are minor and do not deserve mention here.

STATEMENT OF OBJECTS AND REASONS.

Certain sections of the Bengal Tenancy Act, 1885, have brought some unusual hardship upon the cultivating tenants and it is desirable that without bringing any drastic change on the existing system of land tenure of the Province some burden of the tenants be lessened by making some amendments which seem to be very urgent.

The special features are the abolition of landlords' transfer-fee and introduction of compulsory mutation on transfer, abolition of landlords' right of pre-emption, conferring the right of transfer to under-*raiyats* and repeal of certificate procedure for the realisation of rents.

"No deposit shall be necessary when the case for setting aside the sale is filed by a third party" and the word "allowed", in the proviso, be substituted by the word "granted".

STATEMENT OF OBJECTS AND REASONS.

The insecurity of non-agricultural holdings is causing extreme hardship and it should be removed. Payment of landlord's fee and the right of pre-emption are the two plague spots in the tenants' rights and is a standing menace to the poor tenants and it should be given a go-by in the best interest of the country.

Rent is excessive in many places and needs reduction; hence the provision of enhancement of the rent has outgrown its utility and the agriculturists are harassed by unscrupulous landlords by the institution of quarterly and half-yearly suits though the rent is generally paid annually. The landlord should get interest for the detention of their money and should not be entitled to any flat rate of damages. In spite of the fact that the payments of *abwabs* have been made illegal, it is still persisting, hence it need be made penal and the conditions attached to the division of tenancy and tenures are working very hard upon the tenants and are responsible for many rent suits and executions. The persons who are under no obligations of payment of rent are compelled to make a deposit at the time of filing "sale set aside cases" which is inequitous, hence it should go and the interpretation of the word "allowed" is responsible for many conflicting judicial decisions so to avoid ambiguity the word "granted" should be substituted for the word "allowed".

PART VI

Bills introduced in the Council of State and Legislative Assembly; Reports of Select Committees presented to the Council and Assembly; and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

Legislative Assembly Department.

The following Bill was introduced in the Legislative Assembly on the 5th October, 1937:—

L. A. BILL No. 40 OF 1937.

A Bill further to amend the Prevention of Cruelty to Animals Act, 1890.

WHEREAS it is expedient further to amend the Prevention of Cruelty to Animals Act, 1890, in the manner hereinafter appearing; It is hereby enacted as follows:— XI of 1890.

Short title.

1. This Act may be called the Prevention of Cruelty to Animals (Amendment) Act, 193 .

Amendment of section 4, Act XI of 1890.

2. For section 4 of the Prevention of Cruelty to Animals Act, 1890, the following section shall be substituted, namely:— XI of 1890.

Penalty for practising Phuka or Doom dev.

"4. (*1*) If any person performs or permits any person to perform upon any cow or she-buffalo the operation called "Phuka" or "Doom dev" he shall be punished with fine which may extend to five hundred rupees or with rigorous imprisonment which may extend to three months or with both.

Presumption as to permission to practise Phuka or Doom dev by a person in the employment of a person owning a large dairy.

(*2*) If the operation of "Phuka" or "Doom dev" is performed on a cow or she-buffalo by a person in the employment of a person owning a large dairy, it shall be presumed until the contrary is proved that the owner of such dairy has permitted such operation of "Phuka" or "Doom dev" by his employee on a cow or a she-buffalo."

STATEMENT OF OBJECTS AND REASONS.

The practice of "Phuka" or "Doom dev", which is practised generally on she-buffaloes, is extremely cruel. It is growing extensively in the last few years. The sole cause for this appears to be the desire for exploitation of the Commercial dairies which are coming into existence to meet the demand of milk in big cities which are periodically expanding. The old section 4 of the Act is limited to cows only. Moreover it aims only against persons who practise "Phuk" but not against their masters who permit such practices. The sentence provided in the old section 4 is not deterrent. The amendment of the Act that is suggested aims at removing all these defects. The Bill provides also for a presumption against owners of large dairies in respect of permission to servants to practise *phuka*.

The object of the Bill is to put a stop to this cruel practice of *phuka* on cows and she-buffaloes which is getting alarming in its growth.
